Ämne: Agenda for the Sprint Meeting in Delft on May 3-5
Datum: 28 april 2017 13:48
Till: graceful-project@googlegroups.com

SL

Hi all,

here's a rough agenda that Tom and I agreed upon for next week's sprint meeting. It gives some orientation, though we don't have to stick to it but should keep the meeting flexible and goal-oriented.

Wednesday afternoon:

- Update on what is there already, preferably with demos (VisualEditor, DSL, Grace, etc.)
- Discussion: what is missing, what could be changed, what would be expected, etc.

Thursday:

- morning: discussion of the current tools from a participatory user group modelling perspective (upward link to WP2)
- afternoon: discussion of the downward link to WP4 (e.g. interface and JSON format to link WP4 and WP3)

Friday:

- morning: continue discussion on upward and downward links of WP3 to WP2 and WP4
- early afternoon: plan further development

Dileep (our new software developer) and I will arrive at Deltares around 1 pm on Wednesday, Vitalis (who developed the visual editor) can only join on Thursday.

See you in Delft next Wednesday,
Steffen
